Re: Reference Letter

Scott Mazzuca and his team provided us with an accounting migration which guaranteed our success with industry leading software and services. For our business Scott proposed a three phase integration of our systems. This allowed different teams of workers to become proficient at different times allowing us to maintain our business flow with minimal interruption and loss of productivity. Through the critical data migration and "day one" time frame, Team Alliance was with us no matter what it took. Phase three has dealt with expanding the MAS200 abilities with E-Commerce and barcoding solutions, simultaneously giving us another strong revenue source coupled with backend efficiency. MAS accounting and Team Alliance, clearly a win-win solution.

Team Alliance rose to all meet all of our challenges with skill and aplomb.
